INDUSTRIELLE TEILEREINIGUNG 2012

INDUSTRIAL COMPONENT CLEANING 2012

Registration deadline for catalogue entries is on 01.06.2012. Please fax your registration form to +49(0)611.7878-405

Please enter the desired product areas for the service index here.

Cleaning systems

- Systems for aqueous media
- Systems for hydrocarbons
- Systems for chlorine hydrocarbons
- Systems for modified alcohols
- CO2 snow blasting systems
- Steam-cleaning equipment
- Paint stripping systems
- Finishers
- High pressure cleaning equipment
- Laser-beam systems
- Plasma cleaning systems
- Shock wave technique
- Dry ice blasting equipment
- Dry-cleaning plants
- Ultrasonic cleaning equipment
- Vacuum shot blasting systems
- Vibration cleaning equipment

System components

- Demagnetization
- Filter
- Magnetic separator
- Pumps
- Ultrasonic multi-frequency spreader
- Ultrasound components for cleaning
- Ultrasonic cleaning equipment and accessories

- Ultrasonic multi-frequency systems
- Ultrasound transducer

Cleaning media

- Alkaline cleaners
- Neutral cleaners
- Acid cleaners
- Chlorinated hydrocarbons (CHC)
- Hydrocarbons (HC)
- Modified alcohols
- Vegetable oil esters

Drying

- Blowing
- Steam drying
- Intrinsic heat
- Hot air drying
- Infra-red drying
- Low temperature / cold drying
- Centrifugate
- Vacuum drying

Quality Assurance

- Microscopes
- Particle counting systems
- Test inks
- Temperature measuring instruments

Preparation

- Equipment for sewage treatment
- Oil separation systems
- Systems for the service life extension of cleaning baths
- Systems for water treatment
- Distillation system

Material handling

- Surface protection nets
- Cleaning baskets
- Cleaning drums
- Work carriers
- Intermediate grate for cleaning baskets

Services

- System conversion
- Component testing
- Contract cleaning
